INSIGHT SEMICONDUCTOR CORPORATION.

Who we are??

- We established in 2021, Insight semiconductor corporation is one of the fastest-growing electronics component authorized distributor company in India providing quality components and services to OEM, ODM, EMS across varied applications such as Lighting, Consumer Electronics, Automotive, Telecommunication, Defense, Power Electronics, Industrial Electronics, IOT, Medical Devices etc.
- To become India's leading Component Distributor by providing World class services to its customers, promoting Made in India Manufacturers and supporting with latest technology and solutions.
- We are importing the Electronics Components to Global based customers in multiple segment like automotive, Lighting and etc.
- ISC started the business as "Insight Semiconductor Corporation" in New Delhi as an independent distributor of electronic components and has now expanded to other regions of India. Insight Semiconductor is reputed throughout Electronic Industry as a Professional Electronic Components Distribution house known for its Quality components, Supply Chain Management, Full-Time Customer Support and Manufacturing Solutions.
- Insight Semiconductor Corp.'s management team, with more than 15 years of experience in the industry continues to focus on excellent service to our countrywide customers and strives to build long term business relationships based on effective communication, competitive pricing, innovative products and on-time delivery.
- **Specialization:-**
 - Find the obsolete & shortages parts, strong in sourcing .
 - Arrange the High Lead time Parts in short lead time from the multiple countries.
 - Arrange alternate against of obsolete & shortages parts.
 - We can do kiting also.
